

Dreamweaver Advanced

One day

itTrainingUK Ltd
tel: 0208 405 3784
info@ittraininguk.com

Course Aims:

In this hands on Dreamweaver course delegates will continue to expand on their knowledge of Dreamweaver and learn how to speed up website management as well as learning the more complex features of Dreamweaver.

Course Outline:

layers

- using layers
- creating layers

libraries

- creating a library item
- modifying a library item

css stylesheets

- understanding css styles
- defining css style sheets
- applying css style sheets sitewide

head elements

- defining head elements
- editing meta tags

timelines*

- layer movement
- frame based animation

page properties

- set page properties
- modify page properties

templates

- creating templates
- templates for site control
- editable regions
- detaching templates
- editing templates

interactive media

- rollovers, navigation bars, flash text & buttons

Assumed Knowledge: Previous knowledge of Dreamweaver is required either from the Dreamweaver introduction course or from practical experience of using the software elsewhere.

Note* the timelines feature was not included in the original release of Dreamweaver 2004 MX. It needs to be downloaded as an upgrade from www.macromedia.com
